

All your **online orders** in one place

 WhatsApp orders

 Your own shop page

 Order tracking

Customers order on your own shop page or on WhatsApp.
Get paid by UPI, send bills, and let customers track their orders.

FIRST 50 SELLERS

3 months free

- ✓ No card needed
- ✓ Free setup by our team
- ✓ No per-message charges

THE PROBLEM

Selling online should not feel this hard

Orders come in through WhatsApp and Instagram chats. Everything lives in messages, screenshots and a notebook. Here is a normal day for many sellers.

Meet Lakshmi, a saree seller*

*An example, for illustration

- 9:00 am** ● She wakes up to 60 unread chats. Some are orders. Most just say "price?"
- 12:30 pm** ● A customer says "I already paid". She spends 10 minutes searching screenshots.
- 4:00 pm** ● She types her UPI number and the amount, again, for the 15th time today.
- 7:00 pm** ● A new customer asks for a bill. She writes one by hand, or says sorry.
- 11:30 pm** ● Still replying. Yesterday's order was missed, and the customer is upset.

What this costs every seller

Lost orders

Orders hide under new chats and are forgotten.

Money stuck or missed

It is hard to tell who has paid and who hasn't.

Looks unprofessional

No proper bills or updates, so new buyers hesitate.

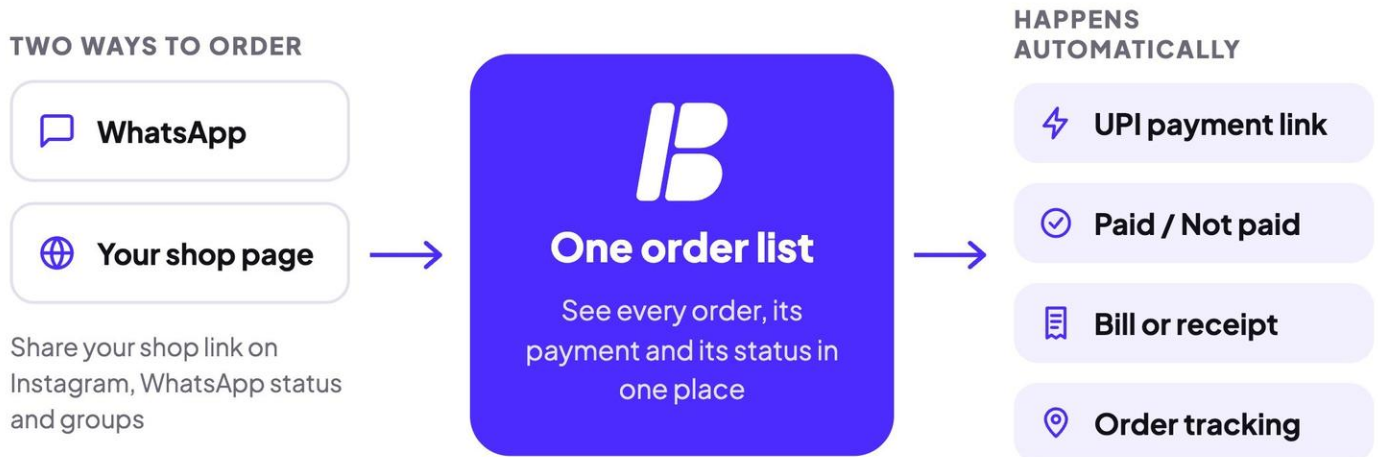

No time for yourself

Hours go into typing, searching and replying.

THE SOLUTION

BizEasy brings everything into one place

Customers can order in two ways: right on your shop page, or on WhatsApp. Every order lands in one simple list, and the payment link, bill and tracking go to the customer automatically.

How it works, in 3 steps

1

Add your products

Photos, prices and sizes. Our team helps you do this for free.

2

Share your shop link

Customers order right on your shop page, or on WhatsApp. Both ways work.

3

Confirm the order

The payment link, bill and tracking go to the customer on their own.

BEFORE BIZEASY

- ✗ Orders in chats, notebook and memory
- ✗ Typing UPI details for every order
- ✗ Checking screenshots to see who paid
- ✗ Bills written by hand
- ✗ Endless "where is my order?" calls

WITH BIZEASY

- ✓ Every order in one list
- ✓ Payment link sent automatically
- ✓ Paid or Not paid, at a glance
- ✓ Proper bills in one tap
- ✓ Customers track orders themselves

How BizEasy helps, day to day

Six moments every online seller knows, and what changes with BizEasy.

The 11 pm order

Problem: A customer orders a silk saree late at night. By morning, the chat is buried.

With BizEasy: She orders from your shop website, so it is saved in your order list automatically.

Result: no missed orders

"I already paid"

Problem: A customer says she paid ₹1,450, but you can't find the screenshot.

With BizEasy: She paid through the BizEasy link, so her order already shows Paid.

Result: no confusion, no awkward calls

"Send me photos"

Problem: Ten customers ask for photos. You send the same 20 photos ten times.

With BizEasy: You share your shop link once. They browse every saree and order on the page or on WhatsApp.

Result: hours saved, more orders

The new customer's bill

Problem: A first-time buyer wants a proper bill before she trusts you.

With BizEasy: You send a GST invoice, or a simple receipt if you don't have GST, in one tap.

Result: she trusts you and orders again

Festival rush

Problem: Dasara week brings 40 orders a day. You lose track of what to pack.

With BizEasy: One look at your list shows what is paid, what to pack and what to send.

Result: every parcel goes out on time

"Where is my order?"

Problem: Customers message again and again to ask about their parcel.

With BizEasy: They track their order themselves, and get an update when it is Packed or Shipped.

Result: fewer calls, happier customers

Less typing. Faster payments. Happier customers.

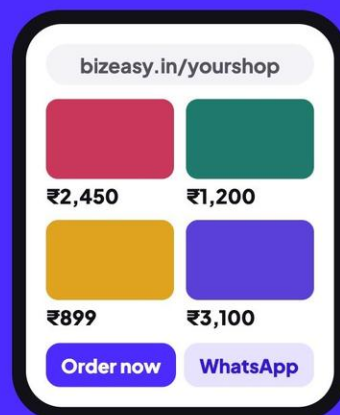

All of this works today

Features, and why they help you

YOUR OWN SHOP PAGE

One link. Your whole shop.

Put **bizeasy.in/yourshop** in your Instagram bio and WhatsApp status. Customers see all your products with prices, and order right on the page or on WhatsApp. Your own website, with no designer needed.

WHAT YOU GET	HOW IT HELPS YOU
 One order list Shop page and WhatsApp orders together	Nothing gets lost in chats
 Quick order entry Add a WhatsApp order in a few taps	Less typing, every day
 UPI payment links Sent when you confirm the order	Get paid faster
 Payment status Paid or Not paid on every order	No more checking screenshots
 GST invoices and simple receipts For GST and non-GST sellers	Look as trusted as a big brand
 Order tracking for customers They see Confirmed, Packed, Shipped	Fewer "where is my order?" calls
 Telugu and English Use the app in your language	Easy for you and your family

✓ ALSO INCLUDED

WhatsApp ordering bot

Telugu voice-note orders

Logins for your staff

Simple sales reports

Works on weak internet

Built for small sellers like you

Questions sellers ask us

Is it hard to learn?

No. If you can use WhatsApp, you can use BizEasy. We set it up and show you how.

I don't have GST. Can I use it?

Yes. Send simple receipts now, and switch to GST bills whenever you register.

Will I pay per message?

No. After 3 free months, it's one flat monthly price. No surprise charges.

What happens after 3 months?

You choose to continue on the monthly plan. No card is needed to start.
